CORE SKILLS

React / Next.js

TypeScript

Tailwind CSS

Vite / React SPA

REST APIs

Git / GitHub

Vercel Deployment

Zenab Waqi

FRONTEND DEVELOPER · REMOTE · OPEN TO OPPORTUNITIES

Analytical and creative frontend developer with a background in education and instructional design. I design, build, and ship web platforms end to end — from architecture to live deployment — with a strong portfolio of real-world products across education, culture, and commerce. See all projects at zenab.dev.

Projects

The OurWorld Family

ourreadingworld.com

ourmathworld.com

ourteachingworld.com

oursufiworld.com

Four interconnected Next.js educational websites — covering reading, math, teaching, and Sufi wisdom — sharing a unified design system. Designed, built, and deployed entirely solo.

Junoon-e-Ishq جنون عشق

junoon-e-ishq.com

An Urdu poetry discovery platform with live Google Books and YouTube API integrations, ghazals and qawalis reels, and a shopping cart — built as a full-featured React SPA.

Skinstric

skinstric-rouge.vercel.app

An AI-powered skincare personalization platform with an interactive skin-analysis assessment that generates a tailored routine based on individual needs.

Summarist

summerbooks.vercel.app

A book-summary app offering condensed reads and audio briefcasts with personalized recommendations — a Blinkist-style reading experience built in React.

Ultraverse

ultraverse.vercel.app

A modern NFT marketplace with a sleek, fully responsive interface for browsing collections and discovering digital assets.

Library

react-library-blush.vercel.app

A React-powered digital library app for browsing, organizing, and discovering books with a clean, responsive design.

Experience

Founder & Frontend Developer

2023 — Present

OurWorld Family · Self-directed

- Architected and shipped four interconnected Next.js web platforms from scratch, covering reading, math, teaching, and interfaith education
- Built and maintained a unified design system with emerald/amber color palette, responsive layouts, and dynamic routing via the Next.js App Router
- Grew combined social media audience to 90K on Facebook and 83.9K on Instagram through consistent, mission-driven content
- Handled full deployment pipeline: GitHub → Vercel, custom domain DNS, environment variables, and production monitoring

Educator — Mathematics & Reading Specialist

2010 — 2023

School Districts · Virginia & Dallas, TX

- Designed and delivered K-5 mathematics and reading instruction grounded in structured literacy and evidence-based pedagogy
- Developed bilingual (Spanish/English) instructional materials that directly informed the architecture of OurMathWorld and OurReadingWorld
- Applied instructional design principles to create engaging, student-centered digital learning experiences

Education

Master of Education (MEd) — Curriculum & Instruction

2022 — 2025

Southeastern Oklahoma State University

- Concentration: Mathematics (K-12) Education
- GPA: 4.0 · Honor Society

Bachelor of Science — Information Technology

2010 — 2012

University of Phoenix

- GPA: 3.67

Technical Skills

Next.js / App Router	React	TypeScript	JavaScript (ES6+)
Tailwind CSS v4	HTML5 / CSS3	Node.js	PostgreSQL / SQL
REST & GraphQL APIs	Redux / Zustand	Jest & Cypress Testing	Docker
CI/CD Pipelines	AWS / Cloud Platforms	Web Performance (Core Web Vitals)	Accessibility (WCAG)

"Building products that bring real communities together."
